

## Don't Let Michael Vick Benefit By Abusing Dogs

Petition Update 2 (May 15, 2009)

Lest anyone forget some of the details about dog-abuser Michael Vick's brutal conduct, we all must remember that according to a United States government report Vick found dog fighting "funny to watch" and, proving that he is no better than a savage, actually threw family pets in the ring with pit bulls and watched the trained killers

injure or kill the helpless dogs-so a witness told federal investigators during the dog fighting investigation that brought Vick down and deservedly sent him to prison. That's the kind of reason ISAR has taken it upon ourselves to lead the fight against Vick profiting from the celebrity he acquired by being a savage abuser of dogs.

Reports are that dog-abuser Michael Vick will be released from federal prison on May 20 and serve the short remainder of his sentence at his Virginia home. Let's "celebrate" that day by reaching ISAR's goal of 10,000 signatures on our [anti-Vick Petition](#).

We know that many of our supporters and others have already signed our anti-Vick Petition, but please take this opportunity to ask everyone on your email address list to do the same.

**[PLEASE FORWARD](#)**
